

ENT main supply modules

ENT power supply units

- variety of 3 power classes
- output power range of 25 - 100 W
- modular plug-in modules

The ENT module supplies the main voltages for the ENV amplifier module, which is the actual amplifier. The ENT and ENV modules can be placed individually into the casing. Depending on the application, several amplifier modules can be combined with one ENT power supply module in a single casing, but each system needs at least one ENT module.

There are three different output power classes available:

- ENT 40 - 25 W output power
- ENT 150 - 50 W output power
- ENT 400 - 100 W output power

	main voltage	output power	module width	part no.
ENT 40	230 V	25 W	14 TE	E-103-13
	115 V	25 W	14 TE	E-103-14
ENT 150	230 V	50 W	14 TE	E-103-23
	115 V	50 W	14 TE	E-103-24
ENT 400	230 V	100 W	18 TE	E-103-33
	115 V	100 W	18 TE	E-103-34
